Arlington, WA 982

Objective:

I have always been interested in using computers to solve problems that we could otherwise never dream of solving, which led me to become a computer engineering student at the University of Washington. After college, I hope to attain a role in software development in order to continue inventing creative solutions to society's problems.

Education:

University of Washington, Seattle, WA   Sept. 2019 – June 2023
Bachelor of Science in Computer Engineering,   Current GPA: 3.92
Minor in Mathematics

Work/Volunteer Experience:

Amazon — SDE Intern   Jun. 2022 – Sept 2022

- Worked on the Selling-Partner Support team, creating an internal website to simplify the process of data pipeline creation for data engineers.
- Improved greatly on frontend development, and learned to use AWS CDK.

Frost Bite ice cream shop — Volunteer   Oct. 2021 – Present

- Helped hundreds of customers weekly by taking orders, serving ice cream, and processing payments.

Crocs — Sales Associate   Oct. 2020 – May 2021

- Developed customer service skills as a retail sales associate at Crocs.

Tutor   2017 – 2019

- Practiced communication and teaching by tutoring algebra, geometry, statistics, and calculus students.
- Peer-tutored middle-school students twice a week in a summer math program.

Activities/Related Coursework:

- Currently creating a game for the Google Play Sore: learning about everything from graphic design, scripting, and general procedure for working on a mid-scale project. (2021 – 2022).
- Programming experience in Java, React (TS), SQL, C, C#, C++, OCaml, Racket, some Python.
- Courses taken include: introduction to data management, data structures and parallelism, programming languages, the hardware/software interface.

Other Skills:

- Speak proficient German
- Experience working with Microsoft Office
- Excellence in understanding mathematical concepts
